

Friday, 19<sup>th</sup> November 2010

Circular No.:-SGS/Admn./071/2010

**Subject : Science and Handicraft Exhibition**

Dear Parents

The school is organising a **Science and Handicraft Exhibition** on Saturday, 27<sup>th</sup> November 2010. The entire student community is busy preparing charts, models and related items. **Class II** students have decided to contribute by planting saplings of medicinal and ornamental value. This activity will be conducted in the school on **Saturday, 20<sup>th</sup> November 2010**. The students are required to bring a pair of plastic or rubber gloves and an apron so that their hands and clothes don't get dirty. The school has already organized saplings and pots for this activity.

Lets help our children to come closer to the **ENVIRONMENT!**

Warm regards

Amita Saxena  
(Headmistress)
