

## October 9 2013

It was nice to see on 9th October about 35 students from Sachdev Global school came to have an interaction with our children. They brought gifts for our children and interacted with them, besides performing few items for them.

The world's leaders had met this September in New York to design the new set of Millennium Goals towards ending poverty and hunger. This was an opportune moment for advocacy. In preparation of the same the organizers of "Nine is Mine" had interacted with various Embassies in New Delhi seeking their help in ensuring that the world articulates the

concern of children into one of the new Millennium (Sustainable) Development Goals. As a campaign too they wish to ensure that the Government Spending accepts 6% of the GDP for Education and 5% for Health as a minimum world standard as recommended by the UNESCO and the WHO.

On Wednesday the 9th of October, the Ambassador of Norway has meta group of 9 children at 3.00 p.m. at Royal Norwegian Embassy 50-C, Shantipath, Chanakyapuri New Delhi - 110021. These were 5 girls from Blue Bells School and 4

boys from Don Bosco in this delegation. His Excellency Mr. Eivind Homme, the Ambassador of Norway had a fruitful interaction with the children and promised all possible support for the cause.

## October 13 2013

On 13th October Mrs. Elizabeth Antony wife of the Defence Minister Mr. A.K. Antony was with us to celebrate her birthday.

She is one of our well wishers taking initiatives for various training programmes for the welfare of children. We are happy to have had 60 students & staff from Don Bosco Bichna, Jharkand visiting Ashalayam on their educational tour to Delhi. They interacted with our children and were enriched by the educative mission of Don Bosco in different cultures, and different settings.
