The Science Olympiad Foundation (SOF) conducted the NCO and NSO examination for the students of class I and II in Sachdeva Global School. The NCO was held in the month of October in the school premises for class II only, primarily aiming to identify and nurture cyber talent amongst youngsters and to enhance their knowledge of the issues related to computers and IT.

The NSO was held on 25th November, also in the school premises for classes I - II. It aimed towards the development of scientific knowledge among the young generation and to provide confidence to the children to face such competitive exams.

The examinations focused on mental ability, logical and analytical reasoning in the field of science and computers. The exams also had an achievers section at the end, wherein the questions were application based. The exam comprised of an objective type of question paper, with a total of 35 questions in all. The time allotted for the given exams were 1 hour. The student participants of SGS had a learning experience and their performance brought pride to the school as the following results show :

NCO :

NAME	CLASS	MEDAL
Krishiv Mishra	II E	GOLD
Dhruv Sinha	II E	SILVER
