SECTION-A (READING)

- Q1. Read the passage given below and answer the questions that follow : (7)

It is important to keep a level head at all times. However, there are two occasions when keeping a level head is absolutely necessary - when we achieve a big success and when we make a bad failure. An exceptional success usually inflates our ego and makes us boastful; a miserable failure fills us with dejection and makes life meaningless. Both these experiences are common in student life. A brilliant performance in one examination turns one's head while a dismal result in another makes one feel as if this were the end of the world. Both these reactions are equally flawed. Superiority complex is as deplorable as inferiority complex.

To be successful in life, one should be in total control of oneself, one should remain unmoved both by the ups and downs of life. For, he who gets broken by a stroke of bad luck is equally likely to get broken by a run of good luck too. No progress is possible in either case.

How can one keep a level head? If our value system is correct, we will not get easily strayed in life. If a businessman gives greater importance to health, character, a happy family and friendship than to money, he will not lose his head if he suddenly turns rich or if there is a slump in business and his income suddenly goes down. Similarly, if a student's focus is on acquiring knowledge, or on personality development, he would be able to achieve success by maintaining balance.

We should also remember that nothing is permanent in this world. Neither good fortune will keep smiling at us nor bad luck keep hounding us all the time. Both prosperity and adversity are bound to pass, to be swallowed by a shadowy past. Why then rejoice in one and grieve at the other?

- (a) On what two occasions is it most important to maintain one's balance? (1)
- (b) What are the usual consequences of an exceptionally good performance or a very bad result? (2)
- (c) What should be a student's attitude towards his studies? (1)
- (d) What great reality of life can help us to remain cool in all situations? (1)

- (c) Complete the following sentence - (1)
In order to be successful in life, _____
- (f) Find the words from the passage that mean the same as the following: (2x½=1)
(i) poor, hopeless -
(ii) a sudden fall in sales, prices -

Q2. Read the poem given below and answer the questions that follow: (6)

Be a leader
At times when the values
Of others seem hollow,
Make sure that you're ready
To lead and not follow.

It's not easy
To challenge the crowd,
Or stick to your views
When opponents are loud.

But sometimes a group
Tends to lose its direction,
And goes down a path
That requires correction.

Though opting for change
Leaves you open to scorn,
Don't stand undecided
Divided or torn.

You're merely respecting
Companions and friends,
By searching for wisdom
When common sense ends.

So if your group needs
Better aims to pursue,
Your guidance can furnish
The right thing to do.

When actions of others
Aren't apt to succeed,
Don't give in and follow
Step forward and lead.

- (a) What becomes difficult when your opponents are loud? (1)
(b) How should you react when people around you are scornful? (1)

- (c) What should be your stand when you find the actions of others inappropriate? (1)
- (d) Complete the following sentences : (2x1=2)
- (i) This poem is all about being a _____
- (ii) The message conveyed through the given poem is _____
- (e) Find words from the poem that mean the same as the given words/phrases :
